### ABSTRACT

**Purpose:** The study aims to examine, compare, and evaluate the content and services provided through the library websites of IITs, IIMs, and AIIMS in India. It focuses on how effectively these websites provide useful information and meet the needs of their users.

**Methodology:** The study examined the library websites of 23 IITs, 20 IIMs, and 13 AIIMS between May 1 and July 2, 2024. Data were collected using a six-point checklist covering General Information, Collections and E-Resources, Library Services, Library Sections, Links and Navigation, and IT Applications and Web 2.0 Tools.

**Findings:** The results show that IIT library websites performed better overall than IIM and AIIMS websites. IIT Gandhinagar ranked first among the top 25 websites with 84 points, followed by IIM Kozhikode with 80 points, IIT Delhi with 78 points, IIT Kharagpur with 77 points, and IIM Ahmedabad with 74 points. The study also found that IIM and AIIMS library websites have considerable scope for improvement in their content, services, and web-based facilities.

## 1. INTRODUCTION

Library websites are extensively used by both on-campus and off-campus users. These library portals present valuable opportunities for library and information professionals in higher education to improve and expand their services. The semantic web enables users to search for various types of information through a single library portal, which not only lists resources but also creates direct links to the native interfaces of each resource. Today, most library websites feature such listings, offering access to both library and web-based resources. The benefits of these portals include easier user access, simplified authentication, a unified presentation of high-quality resources, personalization, and the potential to integrate library services into institutional portals. This paper examines the criteria used to compare the library websites of Indian Institutes of Technology (IITs), Indian Institutes of Management (IIMs), and All India Institute of Medical Sciences (AIIMs).

### 1.1. Statement of the problem

The current research concentrated on the web-based content of library websites, covering general information, collection, services, library section, IT application, link and navigation. Therefore, the statement of the problem is “*Comparative Study of the Library Website of IITs, IIMs, and AIIMs: A Status Report.*”

### 1.2. Scope and limitation of the study

The scope of the present study is limited to IITs, IIMs, and AIIMs library websites. Total IITs in India are 23 and total IIMs are 21 and total AIIMs are 25. I have selected 23 IITs, 20 IIMs, and 13 AIIMs in India because when the sites are being opened Library websites are currently unreachable due to technical difficulties. Some AIIMS have just been established so they don't have libraries. Some AIIMS do not have library websites, some AIIMS have library websites but no library information. IIM shilling library websites are inaccessible due to technical issues.

### 1.3. Significance of the study

Libraries need to enhance their websites to better serve users' informational needs and reflect the comprehensive resources available at their physical locations. Institutions recognized as national centers of importance, such as IITs, IIMs, and AIIMs, play a vital role in equipping the country's brightest minds with essential knowledge and skills. This study assesses the quality of library services provided by these institutions through their websites and examines the patterns of information linkage within them. The primary aim of this paper is to offer guidance to librarians and library and information science professionals on improving their library websites. The study's results can help librarians and webmasters revamp their websites

to be more engaging and informative. By highlighting performance differences among these libraries, the analysis provides valuable insights for enhancing library services and adopting best practices from top-performing IITs, IIMs, and AIIMSs.

#### 1.4. Objectives of the study

- To identify, analyze, and assess the web content of the library websites of IITs, IIMs, and AIIMS in India.
- Evaluate the availability of library-related information, services, resources, and other facilities on the library websites of IITs, IIMs, and AIIMS.
- To evaluate General Information, Collection & E-Resources, Library Services, Library Sections, Links & Navigation, IT Application & Web 2.0 Tool through the library websites.
- To compare the library websites of IITs, IIMs, and AIIMSs using the checklist criteria available on their websites.
- Rank of the IITs, IIMs, AIIMSs library websites based on their six-broad checklist features and ranking of the top 25 IITs, IIMs, AIIMSs in India.
- Propose recommendations for enhancing the library websites of IITs, IIMs, and AIIMS.

## 3. METHODOLOGY

This study involves a comparative analysis of library websites from Indian Institutes of Technology (IITs), Indian Institutes of Management (IIMs), and All India Institute of Medical Sciences (AIIMS) in India. The process began with a Google search for the phrase "IITs in

India,” leading to the identification of 23 IITs from the official Education Ministry website (<https://www.education.gov.in/iits>). Similarly, a search for “IIMs in India” revealed 21 IIMs, as listed on the Education Ministry's official site (<https://www.education.gov.in/iim>). Lastly, searching “AIIMS in India” identified 25 AIIMS institutions from the source (<https://www.aiims.edu>). The study involved navigating each IIT, IIM, and AIIMS website to locate their respective library websites and assess them thoroughly. Out of the 23 IITs identified, all were deemed suitable for the study. From the 21 IIMs, 20 library websites were included, while 13 of the 25 AIIMS library websites were suitable, with some sites being inaccessible due to technical issues or non-existence. Some newly established AIIMS institutions did not yet have operational libraries. A checklist of 109 features under six broad checklist criteria was prepared to analyze, evaluate and collect data on general information, collection & e-resources, library services, library sections, links & navigation, IT application & web 2.0 tools. The analysis used a binary scoring system with two points: ‘Yes’ (worth one point) and ‘No’ (worth zero points). After visiting all relevant websites and recording observations in an Excel sheet. The collected data were further analyzed using MS Excel, and the results were presented in tabular form for interpretation and discussion.

## 6. SUGGESTION

- Among the IITs, IIT Dharwad had the lowest ranking in this regard, while among the IIMs, IIM Amritsar ranked the lowest in terms of general information. Interestingly, AIIMS Jodhpur's library website did not feature a general information section. It is highly recommended that the AIIMS Jodhpur library website include general information features. There was very little information found on general information features at IIM Amritsar and IIT Dharwad. Therefore, IIM Amritsar and IIT Dharwad need to add general information.
- IIT Dharwad, IIM Sambalpur, AIIMS Rajkot, and AIIMS Patna provided significantly less information on library collection & e-resources. Therefore, IIT Dharwad, IIM

Sambalpur, AIIMS Rajkot, and AIIMS Patna need to add library collection & e-resources.

- IIT Dharwad, IIM Amritsar, AIIMS Jodhpur, and AIIMS Rajkot did not display any information about library services. It is necessary to add the library services feature at IIT Dharwad, IIM Amritsar, AIIMS Jodhpur, and AIIMS Rajkot.
- IIT Goa and IIT Dharwad, along with IIM Ranchi, IIM Kashipur, IIM Udaipur, IIM Amritsar, IIM Nagpur, IIM Sambalpur, IIM Sirmaur, and IIM Visakhapatnam, as well as AIIMS Jodhpur, AIIMS Mangalagiri, AIIMS Gorakhpur, and AIIMS Bathinda, have not provided any information about their library sections. There is a need to add the library section.
- IIT Dharwad, did not display any information about links & navigation. IIM Mumbai, AIIMS Rajkot provided very less information about links & navigation. I think that IIT Dharwad, IIM Mumbai and AIIMS Rajkot need to improve in terms of links and navigation.
- IIM Sambalpur, AIIMS Bathinda did not provide any information about IT application & web 2.0 tools. IT application & web 2.0 tools may be included as per need.
- Out of the 23 IIT libraries, IIT scored the lowest on IT applications & web 2.0 tools. Out of the 20 IIM libraries, IIM scored the lowest on Library Section. Out of the 13 AIIMS libraries, AIIMS scored the lowest on library section. The IT applications & web 2.0 tools section on IITs library websites needs improvement. The library section on IIMs and AIIMS library websites also needs improvement.
- In terms of providing general information and collection & e-resources, AIIMS typically shows the lowest scores on library services, library section, links & navigation, and IT applications & web 2.0 tools. Therefore, these criteria need to be adopted on AIIMS's library website.
- Ranking of the top 25 IIT, IIM, and AIIMS Library Websites IIT Goa, IIT Bhilai, IIM Mumbai, AIIMS Kalyani shows the lowest rank Out of (109) Features. There is a need to improvement.

## 6. CONCLUSION

The findings of this study can help librarians enhance and upgrade their library websites. Significant differences were observed among the library websites of IITs, IIMs, and AIIMS across various evaluation criteria. Among the top-ranked websites, the majority belong to IITs, followed by IIMs, while only a few are from AIIMS. Overall, IITs achieved the highest scores across most categories, whereas AIIMS institutions ranked lower, indicating the need for improvement in their library websites and services.
