

Title of the Paper

Author(s) Name(s)

Affiliation(s), City, Country

Email(s)

Abstract

Abstract should be between 150–250 words. Summarize the purpose, methodology, findings, and implications. Avoid citations and abbreviations.

Keywords: Provide 6–8 keywords separated by commas.

1. Introduction

Background and significance of the study. State the research problem, objectives, and structure of the paper.

2. Literature Review / Background

Summarize prior studies, theories, and frameworks. Identify research gaps relevant to this study.

3. Methodology

Explain research design (qualitative, quantitative, or mixed methods), data sources, sampling, tools used, and analysis methods. State limitations briefly.

4. Data Analysis/Results

Present key results clearly. Use tables, figures, and charts as needed, with proper captions and numbering.

5. Discussion/ Findings

Interpret findings in context of research questions and literature. Highlight theoretical and practical implications.

6. Conclusion and Limitations

Summarize the main findings. Acknowledge study limitations and propose future research directions.

Acknowledgments

Optional: Acknowledge funding, institutional support, or individuals who contributed.

References

List all references in APA 7th edition style. Use hanging indent formatting (0.5 inch).
